JGC Wins Major EPC Contract for Manifa Central Processing Facilities, Package 2 in Saudi Arabia

Yokohama, Japan – JGC Corporation and its subsidiary JGC Arabia Ltd. have been awarded by Saudi Arabian Oil Company (Saudi Aramco) the engineering, procurement, construction (EPC) services contract for a large-size Utilities, Storage and Shipping Facilities for the Central Processing Facilities in Manifa, Saudi Arabia.

The contract is a part of the Central Processing Facility of The Manifa Program, which calls for production of 900,000 barrels per day of crude oil from the Manifa offshore oil field. Project completion is scheduled for the end of 2011.

The Manifa Program is a part of the major crude oil increment projects for the Kingdom of Saudi Arabia.

The contract award is due recognition of the high regard of Saudi Aramco for JGC's extensive project execution experience and cost competitiveness in the Middle East region, especially in Saudi Arabia. For this project, JGC plans to utilize JGC Gulf International, newly established in Saudi Arabia, to execute a part of the work in Saudi Arabia.

The sincere hope of JGC is to maintain a long-term close relationship with the Client and contribute to the economy in the region. It is JGC's privilege and pleasure to participate in such important projects.

JGC Corporation is an international engineering and construction company based in Yokohama, Japan, having multiple operating centers and executing large scale projects world-wide. JGC is currently executing projects in Saudi Arabia, Vietnam, Indonesia, Singapore and other countries. Established in 1928, JGC has a strong background in project execution of both hydrocarbon and non-hydrocarbon related projects with annual sales turnover of approximately \$5 billion.
